

## How to make a START account

START V2 is an on-line tool for managing peer-reviewed conferences and workshops. It helps streamline all steps of the editorial process, including paper/abstract submission, committee formation, paper reviews, etc.

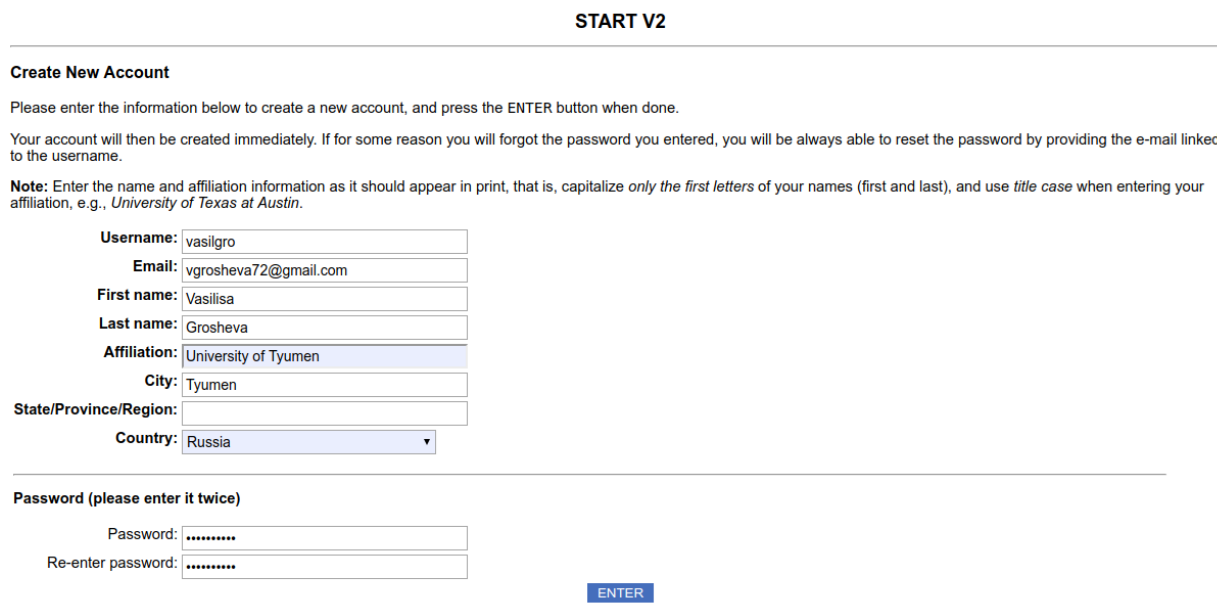

To create an account (to submit a paper to a conference, e.g. EUROPHRAS 2022) follow the three steps below. It should take less than a minute depending on how quickly you can type in your name and think of a password.

**1. Clicking the link at the EUROPHRAS 2022 website will take you to this page. Click at the capitalized and hyper-linked HERE.**

The screenshot shows a login page with a blue header. The title is "Computational and Corpus-based Phraseology". Below the title, there are two input fields: "Enter Username:" and "Enter Password:". Below these fields, there is a red circle around the text "New user?" and a red arrow pointing to the word "HERE" in the text "New user? please register first by clicking HERE." Below that, there is another line of text: "If you lost or forgot your password, please click HERE."

**2. At the next page enter your personal details as they will appear in the paper (not the username, obviously). For example:**

The screenshot shows the "START V2" account creation page. The title is "START V2". Below the title, there is a section "Create New Account". The text says: "Please enter the information below to create a new account, and press the ENTER button when done. Your account will then be created immediately. If for some reason you will forget the password you entered, you will be always able to reset the password by providing the e-mail linked to the username." Below this, there is a "Note": "Enter the name and affiliation information as it should appear in print, that is, capitalize only the first letters of your names (first and last), and use title case when entering your affiliation, e.g., University of Texas at Austin." The form fields are: "Username:" (vasilgro), "Email:" (vgrosheva72@gmail.com), "First name:" (Vasilisa), "Last name:" (Grosheva), "Affiliation:" (University of Tyumen), "City:" (Tyumen), "State/Province/Region:" (empty), and "Country:" (Russia). Below the form fields, there is a section "Password (please enter it twice)" with two input fields: "Password:" and "Re-enter password:". At the bottom right, there is a blue button labeled "ENTER".

**3. Upon clicking enter, you will see a confirmation that the account was created successfully.**

## START V2

---

Your account has been created, and an e-mail with the user information was sent to the address you entered.

If you need to reset your password, please go to the login page and click on the lost password link.

[To Login](#)

---

**4. Now you can log in to this account and submit a contribution to EUROPHRAS 2022!**
